INNOVATION

BUILDING BUSINESSES

DESIGN & MANUFACTURE

VISION:

We envision Conair as a global beacon of excellence, where innovation, integrity, and sustainability converge. Our commitment to suppliers, employees, and the community drives us toward continuous growth and positive impact to all related businesses.

MISSION:

To passionately design, manufacture, and deliver cutting-edge products and services that exceed customer expectations. We specialize in Parking Lifts, Automobile Workshop Equipment & Tools, Mobile Vans Applications, Assembly Plants, Container Homes & related variants, addressing unique needs and enhancing user experiences & customer's trust.

OVERVIEW:

Conair, established in 1996, manufactures, trades, and exports a variety of products including parking lifts, workshop tools, mobile van applications, container homes and vehicle assembly plants. With a state-of-the-art infrastructure and skilled professionals, they offer both standard and customized options. Conair collaborates with clients to design & manufacture innovative products, enhancing their business value proposition. They serve both domestic and international clients, including real estate builders and automotive OEMs.

ABOUT FOUNDER:

Mr. Sameer Kavale, founder and Director of Con Air, is a Mechanical Engineering graduate who founded the company in 1996. The company specializes in manufacturing, trading & exporting goods, including parking lifts, automotive workshop equipments, vehicle assembly plants, mobile vans and container offices.

Mr. Kavale has collaborated with renowned brands and leads a team of 140 professionals.
